"We Finish Only to Begin"

Traveling on life's highway each person moves onward. As we finish one experience we begin another, in order to gain more knowledge to meet our final goal. This ends a small sequence of our life but only to give birth to a new career. "A student nurse is born." The first words we hear are "help me" and our first steps are taken down that long corridor leading to patient care. As we grow our head is filled with knowledge and unforgettable experiences, which help develop our character and nursing skills. Our three years have passed and graduation is finally here. We are no longer student nurses, but graduate nurses. After graduation we go on our separate ways, some toward further education and hospital nursing, and others to have their own families. Wherever we are or whatever we're doing we all live for the future, when once again we are "reborn".

this is only the beginning

Dedication

Being a parent or guardian is often a thankless job. The job started when we were infants and you nursed us through the toddler stage. As we tried to walk you were always there to pick us up when we fell down. As we struggled through all the frustrations of school you helped us with problems we were unable to solve. When we became adolescents you had reason to worry even more. As we chose a career you gave us encouragement and helped us in every way that you could. When we were student nurses — you listened to our week's frustrations that continued for three years.

Now, as graduates we would like to thank you, our parents and guardians, for the patience and understanding you have shown us over the years. With all our love, we the Class of 1971, dedicate this yearbook to you "Our Parents."

A

: Special

Thank You

We first saw Mrs. Kistler the day we entered this school. As time went by we got to know her, some more than others. Upon completing our first nine months of study she presented us with our Hahnemann cap, stating we must wear it proudly. As a special gift to each of us, she gave one red rose.

Mrs. Kistler has been as much a part of our training as that cap or rose. She is no longer with us at Hahnemann, as she has retired after ten years of service to the school.

To Mrs. Kistler from the Class of 1971 we would like to say, "Thank you for all you have done for us and we'll truly never forget you."

Mrs. Edythe G. Kistler, R.N., B.S.

Mary E. Schlosser, R.N., MSN.
Director, School of Nursing

Dear Graduates:

May the ending of student days mark the beginning of a successful career. Success will be yours if you live well, laugh often, and love much. Plan your future in such a way that intelligent men will respect you, children will love you, and the elderly will admire you.

Appreciate earth's beauty, look for the best in others, and give the best in you. These are the ingredients which will help you make the world better than you find it and make your journey through life an inspiration. Then, your memory will be a benediction for all who will have passed your way.

God bless and keep you always!

Hospital Administration

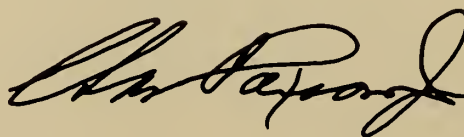

Charles S. Paxson, Jr.

I especially appreciate having an opportunity to greet the graduating class this year because it is the first class graduating under the direction of a new administration for our School. As the medical profession moves forward in its never ending quest to conquer disease the profession of nursing has changed and will continue to change to more effectively meet our patients' requirements in the changing environment of scientific medicine. The ferment of new values, new concepts and new methods will continue to challenge you to greater efforts in the practice of your profession.

My sincere congratulations for your achieving of this your goal, and my warm personal regards go with this expression of hope that each of you will enjoy many years of service and receive deep satisfaction from your service in your chosen field.

Sincerely yours,

Chas. S. Paxson, Jr.
Vice President and Administrator

Nursing Service

Seated: Miss Elspeth Anderson, Director of Nursing Service. **Standing:** Mrs. Ruth Bressi, Associate Director of Nursing Service.

Congratulations and Best Wishes to each one of you of the Class of 1971.

You have achieved one very important goal in your life. This has not been accomplished without sacrifice on your part. As you enter into the nursing profession the ideals you have set will be tested many times. It is hoped that these tests of time will re-affirm those ideals that have been achieved these past three years.

Miss Elspeth Anderson R.N.

JUNIOR YEAR

"A good nurse has a good appetite; that's what Potsy taught us."

I'll never make it to the clinical area.

I made it this far, but not this way!

I know I'll get h--- from mother for doing this!

Graduation

The Graduates

... these forty three girls

We've come a long way, baby.

Do you want to start over again?

"I am not the mailman young lady, I'm your security!"

"An apple a day keeps the doctor away — but who wants to keep them away?"

"... this dance, I call it the hemorrhoid hop."

Does your room have that lived in look?

Wait till you see what else we can do!

Maybe if I close my eyes it will go away.

I can't stand to see myself in the nude.

Our S.G.A. president at work

"No, I am not a ding-a-ling."

"Don't you dare call me Miss Duffner!"

"Now Dearie, when Flo and I were in training . . ."

Let's play Post Office.

Now, which student has the best bladder she'll scrub for Dr. Bower.

Peace (?)

Rx: Kwell Shampoo

Hahnemann express to 3rd floor via L. A. C. 1, 2.

"Equal pay for equal work with no weekends "

Next time I shoot I'll try keeping my eyes open.

"Oh my gosh — she forgot her bloomers"

Boy, these nurses sure use a lot of Sultrin cream.

"... and always make sure the mouth is above the level of the water."

"No girls, when I tell you to shadow the head nurse, you don't have to wear black."

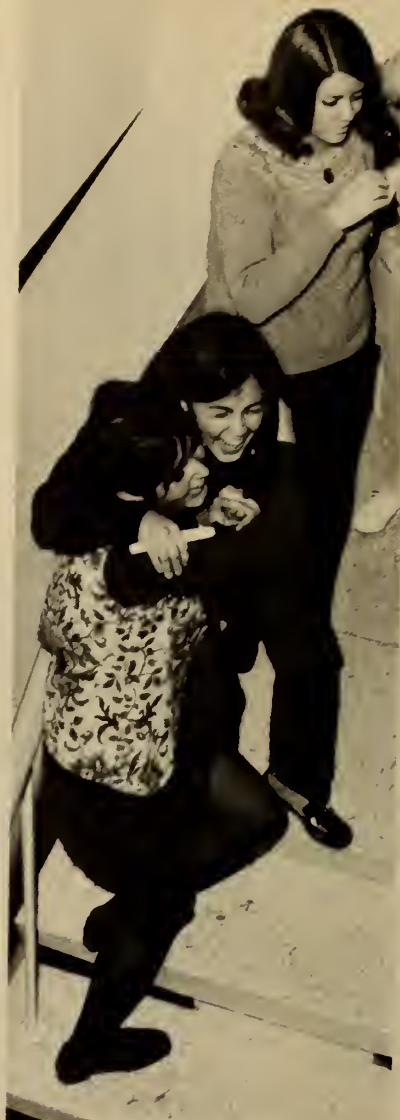

Now, how do I spell my last name, with one L or two???

"Why yes, I do get my information from Ripley's Believe It or Not."

"Give me that nurse and I'll take away three toads!"

"We have got to stop meeting like this."

"I'm going to the city today, yep! yep! yep!"

"Who's mother wears combat boots?"

"What do you mean am I taking precautions?"

"Al who?"

Into the jaws of death, into the mouth of hell.

But, Dr. Davie, I said cramps!!

and the big bad wolf said . . .

If I feel what I think I feel, this little cutie isn't potty trained!

Graduates of Groovy Lady Charm Course

Now, what does a straight line mean??

Mrs. Lobb says, "Drink a quart a day."

The doctor said "force fluids" so send me three bottles of Schmidts.

Mixed grill or mystery meat???
